

## CAP ABPath Continuing Certification (CC), formerly MOC, Improvement in Medical Practice (Part IV) Programs

All CAP interlaboratory performance improvement and quality assurance programs qualify for the laboratory level CC Program, Improvement in Medical Practice requirements. Contact the CAP if you have questions about a specific program.

The following programs qualify at the individual levels for ABPath CC Program, Improvement in Medical Practice requirements.

These programs are available by ordering them through their specific CAP Surveys Proficiency Testing Program. To order the product or for more information, contact a CAP Customer Contact Center representative at 800-323-4040 option 1. Some of them are also available as an individual online purchase through the CAP Learning Portal. Those courses are noted.
